Versatility on a new level

1

Project Cargo and Offshore

Full scope sea transport of complex heavy cargo with single unit transport capacities up to 10,000 t and lifting capacities up to 3,000 t. Offshore installation support with own fleet of DP2 vessels and special equipment, e.g. fly jibs.

2

Semi-Liner Heavy Lift Cargo

Single unit shipments or larger volumes, our semi-liner service connects Europe, Asia, Africa and South America with multiple sailings each month. Fast transit opportunities and highly versatile heavy geared multipurpose vessels.

3

Americas Liner Service

Greatest connectivity within Americas. Weekly sailings between US Gulf, Caribbean and South America East and West Coast. Our fleet composition of smaller sized but heavy geared MPP ships reaches any destination in Americas.

4

Bulk & Breakbulk combinations

Our fleet of bulk vessels with a combined deadweight of 350,000 mt expands our capabilities to carry your high-volume bulk and breakbulk loads.

Any port, anywhere.

Whether simple or tailor-made –
we offer you the whole range of services.

- From liner parcels to 10,000-ton units
- From plain stowage plans to end-to-end engineering solutions
- From a single booking note to custom-made contracts
- Using flexible time charters or our owned fleet

Our versatile composition of shipping services and vessels gives you an unmatched selection of choice and security to get your logistics needs solved from just one partner you can trust and rely on.
